

About Us

Welcome to SKMIHAS for building the future you framed about.

SKMIHAS is a Faith-based private institute, owned by the Diocese of Morogoro, and registered by NACTVET with register number: Reg/HAS/260.

Location Mikumi, 6 km from the National Park. In a beautiful natural environment with modern up to date buildings and facilities. Easily accessible near the main road Dar es Salaam-Mbeya.

Excellent experienced teachers are working on this school who will guide the student to Diploma level Nursing and Midwifery (start 2024) and Diploma level Physiotherapy (start 2025).

The school is attached to St. Kizito Hospital Mikumi. A Hospital with high standards, also for teaching purposes.

The school facilitates safe accommodation, a beautiful boarding house for girls is present. The school is helpful in food supply. ADA and other costs can be paid monthly or quarterly,

We want to welcome all students and will treat them all with respect.

WHY CHOOSE US?

- High standards in medical and educational teaching.
- The newest national curriculum will be followed.
- The school uses the newest materials and manikins.
- Big spacious computer classroom with many personal computers
- Fully equipped library with all books and atlases to study; also E-books.
- Classrooms, skills lab, and big conference/examination room are all very spacious and equipped with excellent furniture.
- Big whiteboards, television screens, beamers are available.
- Lots of exercise materials for nursing practice available.
- Nice spacious boarding house with nice clean showers and toilets.
- School and Hospital are on the same compound, so practical teaching is easy reachable.
- Safe and beautiful natural environment with lots of space to study outside alone or in groups.

OUR VISION

Being a centre of excellence, which will be accessible for every student with the required qualifications. Providing good education so every student will achieve the goal he or she pursues. Our goal is also to develop and improve the healthcare in Tanzania in particular but also for Africa in total, by providing an education with a very high standard.

PROGRAMS WE OFFER

Nursing and Midwifery

The program aims and designed to educate nurses and midwives who will be able to address the contemporary and future needs of Tanzanians.

Physiotherapy

Graduates from this program are expected to have high Physiotherapy professional competence in clinical practice.
